## To-dofasarus

*It's a lucky naturalist who spots this rare beast lurking among the clumps of pens, pencils, brushes on the desk. His long legs are designed to to be seen rising above the chaos of the desk below. Bright color, spots and stripes make To-dofasarus easy to identify.*

*His powerful clothespin jaw holds "to do" lists patiently, in a non judgmental silence. The To-dofasaurus is also happy to hold special occasion messages, inspired quotes or thoughts of the day. Naturally playful, friendly, and intelligent he's the perfect companion for nudging the forgetful. He is known for driving procrastinators to near extinction.*

*A unique beast. This rare creature is believed to be one of a kind.*

# Flower Power Vintage Kaunas Dog Club Medallion and Crocheted Hair Scrunchie Holder and Occasional Vase

*I purchased the vintage Kaunas Dog Club Medallion from a street vendor in Vilnius. I decided to build my paper maché artwork around this. I decided on a silly function.*

*My crocheted hair scrunchies fit into this absurd function. The artwork is built on a glass vase from a local thrift store in Kaunas. It's amazing that I got this done here, because I'm living in a very empty apartment and I'm still a bit lost in Kaunas.*

## Bastet Statuette

*This gentle companion to the fierce goddess Sekhmet may not lead you to pillage and plunder in battle, but she can assist you to increase by means of fertility. If you need more kids, more cattle and more crops, this is your gal.*

*Place her in a prominent place in your home with a votive candle and a toy mouse. She enjoys the offering of catnip incense. Show her your reverence by worshiping your cats; if you don't have a cat, you can worship your dog.*

*This Bastet goddess is an original and unique statuette that comes complete with a blessing for fertility and increase (candle and toy mouse not included).*

# Mystical Monster Blocker

*There's no longer any need to worry about Boogie Monsters with the Mystical Monster Blocker (MMB) floating from the sky. Her galaxy globe lights scare Boogie Monsters just enough to keep them in their hiding spots! She will watch over your room while you sleep even if you forget to turn her Galaxy on.*

*But wait, there's more!*

*If you have \*hit the target\* issues with any males in your home, hand MMB in your bathroom! Not only does she keep Boogie Monsters in hiding, her Galaxy lights help shine the way giving males a perfect aim!*

- Multipurpose, unique, durable, easy to install Mystical Monster Blocker is not responsible for incidents of improper use and will not guarantee potty aim with or without Galaxy lights on.*
- MMB will not be held responsible for any fears caused by waking in the night and feeling her stare.*
- Mystical Monster Blocker will not harm any Boogie Monsters when used properly.*
- Galaxy light batteries are not included.*

## 3 Stars

*As a wife and mother I was so excited to receive my mystical Monster Blocker. Proceed with caution is all I can say!*

*My husband tried turning to look at her mid \*aim\*. Positive note there is that I'm now getting a full remodel of the bathroom. I've since moved her to the hallway and at times hear the children out there talking to her.*

*I've purchased ear plugs to sleep with now as when I suggested donating her my entire family had a fit. I'll give her 3 stars as I think she's built well and shipping was free.*

## Rare Scottish Mini Land Dragon, Guardian of Gardens and Friend of Farmers for Ages

*Lily Petunia Patience McConnell comes from the flower fields of ancient Scotland, from a time when dragons roamed the earth. She is a mini land dragon, and because of her unique chameleon-characteristics to blend in with flowers, grass and fields, she was used by farmers to help guard their fields from crop-destroying creatures. An added bonus that endeared her to farmers, is the hollow spot on top of her head between the horns that conveniently holds exactly a wee dram of whiskey to be used in the event the farmer should become ill (or sober) while working in the fields.*

*Even though she's over a thousand years old, she's still very useful in the garden chasing rodents and bugs while keeping gardeners well-hydrated.*

### 4.5 Stars

This delightful creature is well worth the price, as it's the last of its kind, is small enough for apartment gardens and yet magical enough to watch over large fields of flowers without any difficulty. She is missing a few teeth, but given her age, that's to be expected and she is no less effective in her work for it. Her little head-flask is perfect to hold a dram of spirits or a spot of tea, and holds it temperature for hours - centuries to be exact- but most won't need it stored that long. The only reason she doesn't get a full 5 stars is because she tends to fall asleep for hundreds of years at a time, and if she gets too much clover for lunch, she WILL poop in the house.

## Dragon Tray

*My paper maché tray is made with three different sizes of sushi plastic trays. I covered it in blue origami paper for the final layer and painted the bottom with Prussian Blue acrylic paint. I decorated the inside of my tray with a red and gold origami paper dragon to guard my art supplies.*

### 5 Stars

*My Dragon Tray guards my art supplies so that in the middle of a project I won't lose them. The three sections allow me to put pens, pencils, scissors, glue stick and small scraps of paper etc. into organized space.*

## Ephemeral

*Recovered wire lamp shades - I stripped off the lacey cream colored fabric. The frame is covered in tissue paper, first white and the layered colours, some bird shaped, infused with watered down white glue. I bought these second hand lamps ten years ago with the idea of updating the ugly shades so when the instruction was to make something "useful" I knew what to do. I headed up a community lantern festival "Luminara" in Victoria for a number of years so I had an idea how to have fun with glue and tissue paper. I used some gouache and alcohol pens to add colour. Finished with acrylic medium.*

*This Metro Hog is a game changer. I can now depend on perfect timing for everything I do. Watercolors are layered at the right second (not too wet, not too dry). Thoughts don't leap out of my mouth until fully cogitated. And when it is time for a rest I just close my eyes and listen to the quiet dum de de dum dum dum.*

Therefore impossible to put in a vase. With the

Even with one flower it is still an object to talk

that kind of flowers....

She can be displayed all year long for one's protection against everyday harm.*

## Little Flower Duck

The base of the duck is a sippy cup, the tail is made of cardboard and its legs are made of iron wire and wire. The eyes of dried acrylic paint in the cap of a tube and the horns are toys that children can build with.

I used gesso, waterpaint, lace, acrylic paint, bubble wrap.

*Little Flower Duck writes:*

## Libby: A Useful Tail

*This is Libby. She's an old dog, full of new tricks. In her DNA is the message of Love, Peace and Liberation for ALL! She is a decorative reminder that we must never give up burying the old, decrepit bones of capitalism! She is determined that we build a peace economy rather than a war economy. Born of a discarded water bottle, take-out food containers, and discarded papers, Libby is the epitome of "reduce, reuse, recycle!"*

### 5 Stars!!!

*Libby is a perfect travel companion. She doesn't mind if the car gets too hot, she requires no food nor water. She doesn't talk back, and always listens. Her politics are written all over her...no guessing required and her messaging is clearly LOVE! And her long curvy tail is perfect for practicing ring toss with hair bands!*

## PinBuds, PinLeaves & a TerraPinRest

*PinBuds, PinLeaves and the TerraPinRest provide a temporary home/resting place for the sewing pins used to hold fabric pieces together while hand piecing quilt blocks. Specifically designed to accompany those who hand-sew, they serve as a stabile, attractive, user-friendly, catch-all and collection center for loose pins. Gentle curves keep the pins contained and allow for easy individual pin pick up as needed.*

*Constructed from recycled cardboard apple trays, each Paper Maché Pin, Leave and Rest is hand painted to create a distinctive, one-of-a-kind holder suitable for pins and other small items worth holding, saving or setting apart.*

**5 Stars** *I love my PinBud. I keep it on my sewing tray, alongside the scissors and thread I use for hand stitching my quilt squares together while watching TV. It conveniently (and attractively!) holds the pins I pull as I sew.. Works great at keeping the 10-15 pins I use over and over again in one easy access place.*

**3 Stars** *Why buy one of these, when a small dish or plastic tub would work just as well? That's what I thought before I received a PinLeave (where pins are to be left???) as a gift. Even though I wouldn't spend money on it for myself (and cute names really aren't my thing) it functions as promised and looks better setting out than the box I'd been using.*

## Blue, the Horse That Barks Like a Dog

*Blue is a maquette that has been around since the age of dinosaurs, frozen and unfrozen in time. Hence his blue color. His brown feet came from being frozen in mud and over time, his legs became permanently brown. He is known to be one of the smartest animals in the world. Being frozen in time, his left eye was open so he was able to watch the evolution of the world, which is why he has one white eye. He's believed to be one of the most gorgeous animals that live today (in the eyes of some people).*

### 5 Stars

## Dino

*When I started working I didn't know where I was going but I had an egg carton, empty paper towel tube, and paper dessert bowl that I wanted to use to create some kind of an animal and it just came together as I started taping the component pieces. When Carla suggested adding embellishments I knew that I wanted to incorporate my mother's button collection in some way.*

*I started painting with purple because I like the color purple. Then added turquoise because it's also a color I like. After that I was in a zone as the process took over and I started mixing and adding colors for contrast. I really had fun painting. I like whimsy and color in my art and wanted to express a fun, happy, animated kind of creature that resembled a dinosaur. As for the buttons I poured them out on a tray and didn't have a particular plan in mind except that I wanted to use colorful buttons in varying shapes and sizes.*

*This imaginative vase is made from recycled materials. It is a special fusion of papier-mâché and plastic bottle. This traditionally crafted, playful design, made from recycled materials, is characteristic and inextricably linked to the artist Wilma Klumpenaar. It transcends mere functionality.*

*With this vase, the artist challenges you to tap into your own imagination and creativity. Give him a name and let him be your friend. You can change its unique character with large flowers, small flowers, different flower shapes, branches or feathers.*

*If you are not in the mood to give it a different look, the vase is also decorative without anything in it.*

*This man always listens when you talk to him. He doesn't say anything unkind back. And he turns a long nose at anyone who thinks he's weird. Cherish with love this stunning handmade masculine vase.*

## The Sacred Muse

*The Sacred Muse” will ignite the depths of creativity to conjure insights and connections. First we have “The Muse” with her gazing eyes, a portal to artistic desires. Here, you inscribe your artistic yearning – a longing to capture the fantastical or perhaps weave stories into tapestries. The second, called “The Portal” with her Goddess grotto, is a bridge between realms. It takes your input from “The Muse,” filters it through the lens of the Sacred Feminine and the Collective Unconscious, and births a unique artistic vision. It is not merely about inspiration, but about transformation. As The Muse and The Portal translate this dream-vision into your chosen medium, you embark on a dialogue with your inner world, a gateway to the sublime, tapping into the boundless wellspring of the unconscious.*
