

Photo References to Print Out

Hi!

Thank you so much for signing up for Aris Moore's new Portraits class!

Your first task is to collect about 10 photographic images of people that you will work with in this class. You can choose women, men or children... older images like these or more recent family photos or everything in between... whatever you like!

Resizing: Aris has us working fairly large so make sure the images fill up an 8.5"x11" sheet of paper.

If you like, you can use the 11 ladies I have provided for you here... just print this document TWICE and you should have enough to choose from for the class (that means you will have two printouts of each lady). If you have nice matte paper or cardstock that will work nicely, but really, any paper will do.

Thank you again for signing up and we'll see you soon!
